

SCIENCE

10º SIMPÓSIO INTERNACIONAL
DE CIRURGIA ENDOVASCULAR

📅 09 A 11 • ABRIL • 2026 📍 TIVOLI MOFARREJ-SP

PROGRAMAÇÃO CIENTÍFICA

2026

📅 THURSDAY, 9TH APRIL, 2026 📍 CONFERENCE HALL

7:30-8:50 AM Inova Cura/Science: Intensive Multidisciplinary Course of Limb Salvage and Wound Care

Moderator: Victor Minari Campos

Secretary: Gabriella Richards

7:30-7:37 AM Strategic Debridement: When to Cut, When to Wait

Victor Minari Campos

7:37-7:44 AM Dermal Matrices and Advanced Biological Products: Evidence or Hype?

Annata Della Costa

7:44-7:51 AM Infected Vascular Wounds: Biofilm, Osteomyelitis and Antibiotic Strategy

Igor Marinho

7:51-7:58 AM Hybrid treatment for limb salvage in a patient with CLTI

Sabina Tipantaxi

7:58-8:05 AM Venous Hypertension and Ulcer Persistence: Beyond Compression

Marcial Fallas

8:05-8:12 AM Microcirculation and Tissue Oxygenation: The Missing Link in Chronic Ulcers

Nelson Encarnación

8:12-8:19 AM The Complex Ulcer: Mixed Arterial and Venous Disease — Who Treats First?

Ignacio Escotto

8:19-8:26 AM Optimizing Venous Ulcer Healing: The Role of Velcro-Adjustable Short-Stretch Compression Systems

Maíra Freitas

8:26-8:50 AM Discussion

08:30-09:00 AM Welcome Coffee

9:00-9:15 AM Welcome to SCIENCE | Igor Rafael Sincos

9:15-10:30 AM Vascular Alliance Session: Ex-fellows and Students Science and BIZU (em Português)

Moderators: Igor Rafael Sincos

Secretary: Thalita Toldo Ferreira

9:15-9:22 AM Vascular Surgeon-Performed Venous Duplex Ultrasound: Impact on Treatment Planning and Outcomes in Varicose Vein Disease.

Bruna Feio

9:22-9:29 AM Echocardiography in Preoperative Assessment for Vascular Surgery: What the Surgeon Needs to Know

Jonathan Batista Souza

9:29-9:36 AM Abdominal Aortic Aneurysm: What Every Vascular Surgeon Should Know

Gustavo Resstel

9:36-9:43 AM Thermal ablation: new devices and new options

Clara Freitas

9:43-9:50 AM Clinical Experiences with Embosoft and EmboFlow in Embolization Procedures

Vinicius Bignatto

9:50-9:55 AM Endolaser ablation of Frontal Facial Veins

Arthur Curtarelli

9:55-10:02 AM Inflammation, Metabolism, and Nutrition in Vascular Surgery

Andrea Klepacz

10:02-10:09 AM 30 Years at the Front Line of Vascular Emergencies: What Experience Teaches Beyond Guidelines

Ricardo Aun

10:09-10:16 AM Q&A Session

10:16-10:30 AM Discussion

📅 THURSDAY, 9TH APRIL, 2026 📍 CONFERENCE HALL

10:30-11:45 AM Superficial Vein Disease

Moderators: Vinicius Bertoldi

Secretary: Fábio Almeida

- 10:30-10:37 AM New-Generation Laser Fibers and Wavelengths: What Has Truly Changed?
Rodrigo Bono Fukushima
- 10:37-10:44 AM Perforator Treatment in the Age of Mini-Invasive Surgery
Juliana Puggina
- 10:44-10:51 AM The Role of Tumescant Anesthesia: Why to use, How Much, Where, and When It Matters
Vinicius Bertoldi
- 10:51-10:58 AM Mechanochemical Ablation (MOCA): Where Does It Fit in 2026?
Felipe Coelho
- 10:58-11:05 AM Treatment for Anterior Saphenous Vein Insufficiency
Marcial Fallas
- 11:05-11:12 AM Thermal Ablation in 2025: Are We Asking the Right Questions About RFA vs EVLA?
Nelson Encarnación
- 11:12-11:19 AM Endovenous Treatment for GSV: A Comparative Study of Radiofrequency and 1470-nm Laser
Marcio Filippo
- 11:19-11:32 AM Clinica CASE - Duplex Ultrasound
Nicos Labropoulos e Adriano Souza
- 11:19-11:39 AM Discussion

11:45 -12:45 PM Lunch Symposium – Penumbra / CIVAT: The New Frontier of Mechanical Thrombectomy: Venous and Arterial Revascularization

Moderator: Julio Peclat

Secretary: Vinicius Bertoldi

- 11:45-11:55 AM Mechanical Thrombectomy for Pulmonary Embolism: Expanding the Role of Intelligent Aspiration Systems
Tiago Coutas
- 11:55-12:10 PM Advanced Venous Thrombectomy: Modern Device-Based Strategies for Iliofemoral DVT and Prevention of Post-Thrombotic Syndrome
Carlo Zúñiga
- 12:10-12:20 PM Acute Limb Ischemia in the Endovascular Era: Mechanical Thrombectomy and Contemporary Limb Salvage Strategies
Guilherme Centofanti
- 12:20-12:30 PM Mechanical Thrombectomy for Acute Femoropopliteal In-Stent Thrombosis Using the Lightning 7 System: Results of a Multicenter Study
Julio Peclat
- 12:30-12:45 PM Panel Discussion

1:00-2:00 PM Diagnosis and management of pelvic vein reflux

Moderators: Walter Campos Jr.

Secretary: Matheus Cavichioli

- 1:00-1:07 PM Ultrasound Protocol for pelvic varicose vein
Francine Freitas
- 1:07-1:14 PM Clinical case from diagnosis to treatment
Vinicius Bertoldi
- 1:14-1:21 PM Treatment of Nutcracker Syndrome
Walter Campos Jr.
- 1:21-1:28 PM Sometimes, always, never? When to investigate and treat internal iliac vein tributaries
Ignacio Escotto
- 1:28-1:35 PM Management of limb varicose veins connecting with the pelvis
Isabela Tavares
- 1:35-1:42 PM Live Clinical Case: Real-Time Imaging and Problem-Solving
Nicos Labropoulos e Adriano Souza
- 1:42-1:50 PM Q&A Session
- 1:50-2:00 PM Discussion

📅 THURSDAY, 9TH APRIL, 2026 📍 CONFERENCE HALL

2:00-3:00 PM **Beyond Veins: Dermatophlebology and Phleboaesthetics**

Moderators: Vitor Gornati e Rodrigo Kikuchi

Secretary: Soo Jin Lim

- 2:00-2:07 PM Beyond Veins: Integrating Dermatophlebology into a Vascular Practice
Rodrigo Kikuchi
- 2:07-2:14 PM The Skin-Vein Connection: How Dermal Health Affects Vascular Aesthetics
Vitor Gornati
- 2:14-2:21 PM Post-Sclerotherapy Matting and Neovascularization: Prevention and Treatment
Fabricio Santiago
- 2:21-2:28 PM Beauty Legs Protocol: Why Treating Veins Alone Is No Longer Enough
Igor Rafael Sincos
- 2:28-2:35 PM Managing Hemosiderin Staining: Topical and Energy-Based Options
Christiane Inoue
- 2:35-2:42 PM The Art and Science of Microfoam: Varixio, Polidocanol, and other Mixes
Karen Utsunomia
- 2:42-3:00 PM Discussion

3:00-3:45 PM **BREAK**

3:45-4:45 PM **Beyond Veins: Dermatophlebology and Phleboaesthetics**

Moderators: Vitor Gornati e Rodrigo Kikuchi

Secretary: Viviane Dib

- 3:45-3:52 PM The Perfect Injection: Sclerosant, Pressure and Volume Optimization
Vitor Gornati
- 3:52-3:59 PM Post-Sclerotherapy Skin Care: Topical Agents and Compression Protocol
Flavia Magella
- 3:59-4:06 PM Compression Therapy 2.0: Pressure, Elasticity & Patient Adherence
Rodrigo Kikuchi
- 4:06-4:13 PM The Impact of Changing the Beamwidth of a 1064nm Long Pulse Transdermal Nd:YAG Laser on Skin Interaction
Marcelo Grill
- 4:13-4:20 PM Cooling and Cryo-Assisted Sclerotherapy: Options and How to Choose
Rodrigo Kikuchi
- 4:20-4:27 PM Chemical Peeling for Leg Skin
Natasha Fairbanks
- 4:27-4:45 PM Discussion

4:45-6:00 PM **Beyond Veins: Dermatophlebology and Phleboaesthetics**

Moderators: Vitor Gornati e Rodrigo Kikuchi

Secretary: Carolina Mardegan

- 4:45-4:52 PM Recurrent Matting: are we treating veins or overlooking lipedema? The role of Photobiomoulation
Paulo Laredo
- 4:52-4:59 PM Automated Foam Sclerotherapy with Xpuma: A Game-Changer in small Vein Treatment
Walter Campos Jr.
- 4:59-5:06 PM The science behind facial veins treatment
Arthur Curtarelli
- 5:06-5:13 PM Q-Switch and Picosseconds step by step: this time you will understand
Paulo Laredo
- 5:13-5:20 PM When should we microneedle telangiectasia?
Karen Utsunomia
- 5:20-5:27 PM Beyond the Foam: The Power of Tumescant-Assisted Sclerotherapy
Mary Falcão
- 5:27-5:34 PM Laser Parameters and Skin Types: How I used to do, how I do today
Hugo Camilo
- 5:34-5:41 PM Ultrasound imaging of the small veins and skin
Nicos Labropoulos e Adriano Souza
- 5:41-5:49 PM Q&A Session
- 5:49-6:00 PM Discussion

📅 THURSDAY, 9TH APRIL, 2026 📍 ARENA ROOM

10:30-12:30 PM Mesa Miomas Uterinos

Moderators: Enio Ziemiecki Junior

Secretary: Teresa Cristina Alves Duarte

10:30-10:50 AM Visão da ginecologia: seleção de pacientes, alternativas clínicas e quando a cirurgia ainda vence

Mira Zlotnik

10:50-11:10 AM Embolização de artérias uterinas: padrões atuais, segurança e seguimento

André Assis

11:10-11:30 AM Ablação: planejamento, segurança térmica, complicações e follow-up

Felipe Bassols

11:30-11:50 AM Mioma e fertilidade: aconselhamento e o que muda na escolha do procedimento

Mira Zlotnik

11:50-12:10 PM Embolização na adenomiose: técnica, endpoints e como reduzir falhas

Enio Ziemiecki Junior

12:10-12:30 PM Discussion

11:45-12:45 PM LUNCH Symposium 1 | Conference Hall

1:00-2:00 PM Complex Endovascular Lower Limb Obstruction

Moderador: Guilherme Centofanti

Secretary: Fábio Almeida

1:00-1:07 PM Clinical Case 1 - LIVE IMAGE

Nicos Labropoulos

1:07-1:14 PM Crossing the Uncrossable: Re-entry Technologies in Complex SFA Occlusion

Manoel Lobato

1:14-1:21 PM Prepare the Vessel First: IVUS-Guided Atherectomy Before Drug-Coated Balloon in Peripheral CTOs

Alexandre Araujo Pereira

1:21-1:28 PM Revascularization with ByCross™ atherectomy device - initial experience

Luiz Henrique Coelho

1:28-1:35 PM Stealth 360° Revolution: Atherectomy as Vessel Preparation

Jose Oliveira-Pinto

1:35-1:42 PM Small Arteries, Big Impact: The Power of Tibiopedal Access in Limb Salvage

Nelson Encarnación

1:42-1:49 PM Q&A Session

1:49-2:00 PM Discussion

2:00-3:00 PM SCIENCE Vascular Access Session (SAVE – CIDA)

Moderator: Thiago Barroso

Secretary: Vinicius Bertoldi

2:00-2:07 PM Clinical Scenario - Dialysis Access Ultrasound (LIVE IMAGE)

Nicos labropoulos

2:07-2:14 PM Solaris Covered Stent: Current Evidence and Future Perspectives in Vascular Access

Leonardo Harduin

2:14-2:21 PM Drug-eluting Stents: The New Magic Bullet?

Thiago Barroso

2:21-2:28 PM Balloon Assisted Catheter Implantation – Why do it?

Márcio Filippo

2:28-2:35 PM Endovascular Extra-anatomic Outflow Reconstruction: What are the Options

Leonardo Cortizo

2:35-2:42 PM AV Access Thrombosis - How to choose the technique and results

Carlos Gama

2:42-3:00 PM Discussion

 **THURSDAY, 9TH APRIL, 2026**  **ARENA ROOM**

3:00-3:45 AM BREAK

3:45-4:45 PM SCIENCE Vascular Mix

Moderador: Igor Rafael Sincos

Secretary: Emanoela da Silva Gonçalves

3:45-3:52 PM Initial Results of the VESTO Covered Stent for Central Venous Occlusion Management.

Edson Gonçalves Ferreira Júnior

3:52-3:59 PM Venous Malformations: Bleomycin vs Polidocanol Foam vs STS—Selecting the Agent

Márcio Meira

3:59-4:06 PM From Indication to Outcomes: How Robotics Is Redefining Thoracic Outlet Surgery

Alessandro Mariani

4:06-4:13 PM Venous Thoracic Outlet Syndrome: When to stent?

Leonardo Cortizo

4:13-4:20 PM Popliteal Entrapment & Functional PAES: Dynamic Imaging and Decision-Making

Marcial Fallas

4:20-4:27 PM Clinical case - Duplex

Nicos Labropoulos and Igor Rafael Sincos

4:27-4:34 PM Q&A Session

4:34-4:45 PM Discussion

4:45-6:00 PM Hiperbaric Medicine

Moderator: Ivan Marinho

Secretary: Igor Rafael Sincos

4:45-4:52 PM Hyperbaric oxygen therapy in complicated diabetic foot.

Marcelo Moraes

4:52-4:59 PM HBO in Complex Wounds: From Diabetic Foot to Radiation Necrosis

Bianca Bastos

4:59-5:06 PM HBO in Vascular and Ischemic Complications: Lessons from Critical Limb Ischemia

Igor Rafael Sincos

5:06-5:13 PM Hair Restoration and HBO: Optimizing Graft Survival and Microcirculation

Romana Novais

5:13-5:20 PM Hyperbaric Oxygen and Regenerative Medicine in Sports

Mateus Antunes Nogueira

5:20-5:27 PM Hyperbaric Oxygen and Regenerative Medicine: Beyond Wound Healing

Christiane Inoue

5:27-5:34 PM Post-Surgical Optimization: HBO as an Adjunct in Plastic, Dermatologic and Reconstructive Surgery

Ícaro Samuel

5:34-5:41 PM Q&A Session

5:41-6:00 PM Discussion

 **FRIDAY, 10TH APRIL, 2026**  **CONFERENCE HALL**

7:30-8:30 AM Inova Cura/Science: Intensive Mutidisciplinary Course of Limb Salvage and Wound Care

Moderator: Igor Rafael Sincos

Secretary: Teresa Cristina Alves Duarte

7:30-7:37 AM Soil Preparation: the Influence of Metabolism on Wound Healing

Akash Prakasan

7:37-7:44 AM Why Are There Wounds that are Difficult to Heal?

Lucas Trindade

7:44-7:51 AM Use of Bioactive Glass in the Context of Diabetic Foot Care: How I Do It?

Marco Teixeira

7:51-7:58 AM Surgical Treatment of Diabetic Foot: Knowing the Compartments and Associating Techniques is Sufficient to Minimize the Amputation Level?

Eduardo Pires

7:58-8:05 AM Is it Possible to Reduce Tissue and Functional Loss in Critical Limb Ischemia (CLI) by Combining Endovascular Treatment with Regenerative Medicine Techniques

Rodrigo Biagioni

8:05-8:12 AM Peripheral Blood-Derived Products, Adipose Tissue, or Bone Marrow Aspirate: What is the Optimal Timing for their Use in Wound Treatment?

Sérgio Tiozzi

8:12-8:30 AM Discussion

08:30-09:00 AM Welcome Coffee

8:30-9:30 AM Current approaches in the treatment of chronic ilio caval obstruction

Moderator: Manoel Lobato

Secretary: Alexandre Melo

8:30-8:37 AM How to go through tough occlusions

Manoel Lobato

8:37-8:44 AM Cava occlusion after Vena Cava Filter: Series of cases

Igor Rafael Sincos

8:44-8:51 AM Choosing the Right Stent for Venous Disease — Do Dedicated Venous Stents Matter?

Marcial Fallas

8:51-8:58 AM Inari RevCore™: A New Era in Mechanical Venous Occlusion Clearance

Adam Gwozdz

8:58-9:05 AM Strategies to treat below the inguinal ligament

Ignacio Escotto

9:05-9:12 AM Clinical case - LIVE IMAGE

Nicos Labropoulos

9:12-9:30 AM Discussion

 **FRIDAY, 10TH APRIL, 2026**  **CONFERENCE HALL**

9:30-10:30 AM Treatment of venous thromboembolism: Current standards and evolving strategies

Moderator: Igor Rafael Sincos

Secretary: Rafael de Sá

- 9:30-9:37 AM Anticoagulation 2.0: DOACs, Monitoring and Extended Therapy
Giuliano Volpiani
- 9:37-9:44 AM When to Go Beyond Anticoagulation: Selecting Patients for Endovascular Intervention
Inez Ohashi
- 9:44-9:51 AM Building a PERT Team: Multidisciplinary Care in Real Life
Adam Gwozdz
- 9:51-9:58 AM Submassive PE: The Intermediate-High Risk Grey Zone
Carlos Gama
- 9:58-10:05 AM DVT and PE Overlap: From Leg to Lung — Single Strategy Approach
Igor Rafael Sincos
- 10:05-10:12 AM Pulmonary endarterectomy for Chronic Thromboembolic Pulmonary Hypertension (CTEPH)
Tiago Machuca
- 10:12-10:30 AM Discussion

10:30-11:45 AM Thrombolysis, Thrombectomy and Pulmonary Embolism

Moderator: Manoel Lobato

Secretary: Rafael Jeuken

- 10:30-10:37 AM Intermediate-High Risk PE: Endovascular vs Systemic Therapy
Manoel Lobato
- 10:37-10:44 AM Inari FlowTrierer & ClotTrierer Experience: From Massive to Submassive PE
Adam Gwozdz
- 10:44-10:51 AM Penumbra Lightning Flash System: Lightning-Speed PE Removal
Carlo Zúñiga
- 10:51-10:58 AM Less Thrombolytic, Better Outcomes: The Evolution of EKOS for Pulmonary Embolism.
Andreia Marques de Oliveira Dalbem
- 10:58-11:05 AM ECMO in Pulmonary Embolism: Indications, Timing and Integration with Endovascular Therapy
Tiago Machuca
- 11:05-11:12 AM Managing RV Dysfunction and Hemodynamics Post-Thrombectomy
Leandro Echenique
- 11:12-11:19 AM Thrombectomy in IVC and Upper Extremity Thrombosis
Igor Rafael Sincos
- 11:19-11:26 AM Q&A Session
- 11:26-11:45 AM Discussion

FRIDAY, 10TH APRIL, 2026 CONFERENCE HALL

11:45-12:50 PM LUNCH SYMPOSIUM - INARI

Moderator: Igor Rafael Sincos

Secretary: Stephaní Martins de Oliveira

11:45-11:55 AM Welcome & Opening

Luis Fonseca. GM Inari, now part of Stryker, Latin America & Canada

11:55-12:10 PM How ClotTrierer has changed the Paradigm in my DVTs Treatment Practice

Tiago Coutas, Vascular Surgeon. Rio de Janeiro, Brazil

12:10-12:25 PM Expanding long-stage DVT treatment window with Inari's innovative portfolio

Adam Gwozdz, Vascular Surgeon. Medical Affairs Director Inari, now part of Stryker

12:25-12:50 PM Panel Discussion

1:00-2:00 PM Clinical Treatment of Venous Disorder

Moderator: Vinicius Bertoldi

Secretary: Emanoela da Silva Gonçalves

1:00-1:07 PM Endothelium, Inflammation & Oxidative Stress in Chronic Venous Disease (Servier)

Ignacio Escotto

1:07-1:14 PM Venoactive Drugs: Evidence, Mechanisms & Real-World Data

Sérgio Belczak

1:14-1:21 PM Telangiectasias and Varicose Veins on the Ankle and Foot: Special Challenges and Safety Zones

Luiz Fernando Albernaz

1:21-1:28 PM Edema & Microlymphatic Dysfunction: Bridging Venous and Lymphatic Systems

Fabricao Santiago

1:28-1:35 PM Clinical Management of Lipedema & Venous Insufficiency Overlap

Isabela Tavares

1:35-1:42 PM Intermittent Passive motion machine: a new development in mechanical prophylaxis.

Luiz Fernando Albernaz

1:42-1:49 PM Q&A Session

1:49-2:00 PM Discussion

2:00-3:00 PM VENOUS SYMPOSIUM - LATIN SESSION

Moderator: Nicos Labropoulos

Secretary: Igor Rafael Sincos

2:00-2:07 PM Venous ulceration is a multifactorial disease

Sabina Tipantaxi

2:07-2:14 PM Imaging for patients with venous ulcers

Adriano Souza

2:14-2:21 PM Interventions for venous ulcers - superficial and perforator veins

Marcial Fallas

2:21-2:28 PM Interventions for venous ulcers - deep veins

Ignacio Escotto

2:28-2:35 PM A clinical case of venous ulcer management

Sabina Tipantaxi

2:35-2:42 PM Clinical case - Live Image

Nicos Labropoulos and Igor Rafael Sincos

2:42-2:49 PM Q&A Session

2:49-3:00 PM Discussion

 **FRIDAY, 10TH APRIL, 2026**  **CONFERENCE HALL**

3:00-3:45 PM BREAK

3:45-4:30 PM **Keynote Lecture - From Global Guidelines to Clinical Practice in Brazil: What the Future of Vascular Surgery Demands from Us As Surgeons, Leaders and Educators.**

Speaker: Edwaldo Joviliano

Presenters: Igor Rafael Sincos e Nicos Labropoulos

4:30-5:45 PM **Total Laser Approach: Comprehensive Treatment of Saphenous and Tributary Veins**

Moderator: Arthur Curtarelli

Secretary: Rodrigo Kikuchi

4:30-4:37 PM Endolaser Treatment of Tributary Veins: Cannulation Techniques and Material Compatibility

Arthur Curtarelli

4:37-4:44 PM Why Don't We Need to Worry About Ablation Being Intravenous? A Justification of the TETHA Technique.

Nara Medeiros

4:44-4:51 PM ATTA Is More Than Endovenous Thermal Ablation. What Is the Real Evolution?

Daniel Amatuzy

4:51-4:58 PM Is the LEST Technique Only for Cases with Saphenous Insufficiency? What Is Its Differential?

Felipe Coelho

4:58-5:05 PM Beyond Total Ablation: Indications and Strategy for Alternative Venous Therapies

Elias Arcenio Neto

5:05-5:12 PM The Evolution Toward the 1940 nm Wavelength: Indications, Technical Differences, and Outcomes

Jose Oliveira-Pinto

5:12-5:45 PM Panel Discussion

 **FRIDAY, 10TH APRIL, 2026**  **ARENA ROOM**

7:30-8:50 AM Lipedema Science

Moderators: Vitor Gornati e Karen Utsunomia

Secretary: Nayara Cáceres

7:30-7:40 AM Inflammatory Pathways in Lipedema: Endothelial and Adipose Cross-Talk

Nicole Tenenbaum

7:40-7:50 AM Tell me more about the importance of the fascia in Lipedema

Amanda Joseph

7:50-8:00 AM How can gut microbiota influence lipedema evolution?

Débora Oro

8:00-8:10 AM Ultrasound for Lipedema: What to Look For Beyond Reflux

Isabela Tavares

8:10-8:20 AM Lipedema vs. Venous Disease: Diagnostic Boundaries and Overlaps

Karen Utsunomia

8:20-8:30 AM DXA densitometry in Lipedema: game-changing distribution indices (and how to avoid interpretation pitfalls).

Alexandre Câmara

8:30-8:50 AM Discussion

9:00-10:30 AM Lipedema Connections

Moderators: Jaqueline Baiocchi e Vitor Gornati

Secretary: Kamylla Santos Braga

9:00-9:10 AM Lipedema: much more than a fat disorder

Vitor Gornati

9:10-9:20 AM The Keto & Low Carb Connection: Is there a rationale for Lipedema Management?

Fernanda Maniero

9:20-9:30 AM Compression Therapy in Lipedema: Evidence, Challenges, and Compliance

Jaqueline Baiocchi

9:30-9:40 AM Exercise and Lipedema: What NOT to do

Edson Timóteo

9:40-9:50 AM Effects of Physical Exercise in Patients with Lipedema: A Systematic Review and Update of the Evidence

Daniela Ribeiro Gomes

9:50-10:00 AM The Missing Link in Biomechanics: Correlation between Knee Valgus, Foot Strike, and Pain in Lipedema – How to Correct It

José Otávio Pécora

10:00-10:10 AM Lipedema & Compulsion: Why 'treatment alone' doesn't solve the problem — and what changes in practice.

Lygia Gayoso

10:10-10:30 AM Discussion

 **FRIDAY, 10TH APRIL, 2026**  **ARENA ROOM**

10:30-12:00 PM Lipedema Procedures

Moderators: Joana Carvalho e Vitor Gornati

Secretary: Stephanie Yuri Sakashita

10:30-10:40 AM Lipedema Surgery: What to Expect in difficult cases and When to Say No

Marília Ito

10:40-10:50 AM Is lipedema surgery really a threat to lymphatic system?

Jaqueline Baiocchi

10:50-11:00 AM Biostimulators for Aesthetic Improvement in the Lower Limbs

Natalie Haddad

11:00-11:10 AM Shockwave therapy at different stages of lipedema? Pain, fibrosis, and post-operative care.

Isabela Azeredo

11:10-11:20 AM The role of the vascular surgeon in lipedema surgery: a Portuguese experience.

Joana de Carvalho

11:20-11:30 AM Post-operative clinical treatment to ensure better results.

Débora Oro

11:30-11:40 AM The Future of Lipedema Research: What's on the Horizon?

Patrícia Frôes

11:40-12:00 PM Discussion

12:00-1:00 PM Lunch Symposium 2 | Conference Hall

1:00-2:00 PM Beyond Veins: Dermatophlebology and Phleboaesthetics

Moderator: Rodrigo Kikuchi and Vitor Gornati

Secretary: Bruno Viotto

1:00-1:07 PM Muscle Tone and Skin Firmness: The Missing Link in Venous Aesthetic Outcomes

Nayara Cáceres

1:07-1:14 PM Hand Rejuvenation and Dermal Filters

Natalie Haddad

1:14-1:21 PM Frontal Vein treatment with endovenous laser: from choosing to treating

Paulo Laredo

1:21-1:28 PM Cosmetic results after superficial vein interventions - the impact of photography on patient self-evaluation

Joana de Carvalho

1:28-1:35 PM Sclero, EVLT or Hook? Decision-Making in Tributary Treatment

Ben-Hur Parente

1:35-1:42 PM Skin Beauty: Ablative and non ablativ fractional lasers

Rodrigo Kikuchi

1:42-1:49 PM Strategies for achieving a good cosmetic result with foam sclerotherapy

Lidiane Rocha

1:49-2:00 PM Discussion

 **FRIDAY, 10TH APRIL, 2026**  **ARENA ROOM**

2:00-3:00 PM Aorta Talks: Advances in the management of the thoracic aorta

Moderator: Edwaldo Joviliano

Secretary: Alexandre Kirchner

2:00-2:07 PM The importance of genetic testing in aortic disease

Vagner Madrini

2:07-2:14 PM Custom-Made Endografts for Endovascular Repair of the Aortic Arch

Mauri Comparim

2:14-2:21 PM Aortic Arch Debranching vs Full Endovascular Approach: Where Are We Going?

Samuel Steffen

2:21-2:28 PM Branched and Fenestrated Endografts for Arch Pathology: Who Is a Candidate?

Lucas Freire

2:28-2:35 PM Timing of TEVAR in Type B Dissections: High-risk criteria really matter?

André Brito

2:35-2:42 PM Left Subclavian Revascularization in TEVAR: How to do it?

Jose Oliveira-Pinto

2:42-2:49 PM Ultrasound assessment of abdominal aortic Aneurysm: LIVE DEMONSTRATION

Igor Rafael Sincos and Nicos Labropoulos

2:49-3:00 PM Discussion

3:00-3:45 PM BREAK

3:45-4:30 PM Keynote Lecture | Conference Hall

4:30-5:45 PM Aorta Talks: Modern strategies for abdominal aorta and iliac artery disease

Moderator: André Brito

Secretary: Vinicius Garcia

4:30-4:37 PM Ultrasound assessment of abdominal aortic Aneurysm: LIVE DEMONSTRATION

Nicos Labropoulos e Adriano Souza

4:37-4:44 PM Best Practices for Challenging Necks: Short, Angulated, Conical and Thrombus-Containing

Thiago Barroso

4:44-4:51 PM Will we still be using PMEGs in 10 years?

André Brito

4:51-4:58 PM Infected Abdominal Aortic Endograft: Indications and Explantation Strategies

Marcio Filippo

4:58-5:05 PM Voyager repositioning device

Gutenberg Gurgel

5:05-5:12 PM Complications after EVAR: Limb Occlusion

Adam Gwozdz

5:12-5:19 PM From Custom-Made to Off-the-Shelf Endografts for Thoracoabdominal Aortic Aneurysm Repair:

State of the Art

Fábio Campedelli

5:19-5:26 PM Impact of Thrombus on AAA Behavior And EVAR Outcomes

Nicos Laboproulos

5:26-5:33 PM Q&A Session

5:33-5:45 PM Discussion

📅 SATURDAY, 11TH APRIL, 2026 📍 CONFERENCE HALL

08:00 – 08:15 Boas-vindas: A Visão 360° – Por que o tratamento isolado falha?
Fábio Kamamoto

08:15 – 09:35 **SESSÃO 1: O "OLHO CLÍNICO" E A IMAGEM DE ALTA DEFINIÇÃO**

Moderador: Fábio Kamamoto

08:15 – 08:30 Diferencial Crucial: Checklist prático para distinguir Lipedema, Linfedema e Obesidade na primeira consulta.
Vitor Gornati

08:30 – 08:45 Microcirculação, Fragilidade Capilar e Edema no Lipedema
Ignacio Escotto (MEX)

08:45 – 09:00 Predominância Estrogênica na Vida Real: estroboloma, inflamação e progressão do Lipedema
Débora Oro

09:00 – 09:15 Ultrassom Além do Básico: Nódulos, espessura e compressibilidade tecidual – Caso ao Vivo
Karen Utsunomia & Isabela Tavares

09:15 – 09:35 Discussão

09:35 – 09:50 INTERVALO (Coffee Break)

09:50 – 11:25 **SESSÃO 2: O "BULÁRIO" DO LIPEDEMA E HORMÔNIOS**

Moderador: Vitor Gornati

09:50 – 10:05 Nutrição de Precisão no Lipedema: Cetose, Inflamação e Microbiota na prática
Sinésio Junior

10:05 – 10:20 Gestrinona, Testostona, Oxandrolona, Metenolona e afins. Quando e como?
Camila Moraes

10:20 – 10:35 Canetas Emagrecedoras: Existe impacto direto no Lipedema? O que é evidência, o que é extrapolação
Alexandre Câmara

10:35 – 10:50 O "Bulário" do Lipedema: Fluxograma prático para suplementação oral e injetável.
Patrícia Cavalcanti

10:50 – 11:05 Alerta Hormonal: Perigo da aromatização da Testosterona
Fabiano Serra

11:05 – 11:25 Discussão

11:25 – 12:40 **SESSÃO 3: BIOMECÂNICA, REABILITAÇÃO E TECNOLOGIA**

Moderador: Fabio Kamamoto

11:25 – 11:35 Estudo Diagnóstico da Biomecânica no Lipedema: Avaliação funcional, baropodometria, eixo mecânico e padrões de sobrecarga.
Leonardo Metsavaht

Leonardo Metsavaht

11:35 – 11:47 Exercício como remédio: Resposta estética, sintomática e funcional
Vitor Gornati

11:47 – 11:58 Tecnologias na Fibrose: Protocolos de Ondas de Choque, Radiofrequência e Laser – Evidências imediatas.
Jaqueline Baiocchi

11:58 – 12:08 Fotobiomodulação (Laser/LED): Alvo na mitocôndria para controle da dor e inflamação.
Patrícia Fróes

12:08 – 12:20 Criolipólise em placas: ciência e técnica para melhora funcional e estética
Curro Milán (ESP)

12:20 – 12:40 Discussão

📅 SATURDAY, 11TH APRIL, 2026 📍 CONFERENCE HALL

12:40 – 13:40 INTERVALO PARA ALMOÇO

13:40 – 15:00 SESSÃO 4: CONSULTÓRIO NA PRÁTICA: LIDANDO COM O DIA-A-DIA

Moderador: Vitor Gornati

13:40 – 13:52 Além do Edema: A ciência da personalização da Terapia Compressiva no Lipedema

Rodrigo Kikuchi

13:52 – 14:04 Varizes, Vasinhas e Inflamação: Benefícios clínicos do tratamento de vasinhas e varizes — cuidados técnicos essenciais

Karen Utsunomia

14:04 – 14:16 Quando o tratamento não funciona: Erros comuns no manejo clínico do Lipedema e como corrigir na prática

Vitor Gornati

14:16 – 14:28 Dermatologia Integrativa: Tratamento da flacidez de pele e qualidade dérmica não-cirúrgica (Bioestimuladores e tecnologias)

Adriana Vilarinho

14:28 – 14:40 Gerenciando a expectativa da paciente entre a beleza, a "cura" e o controle.

Fábio Kamamoto

14:40 – 15:00 Discussão

15:00 – 15:20 INTERVALO (Coffee Break)

15:20 – 16:40 SESSÃO 5: CIRURGIA NO LIPEDEMA: TÉCNICA E SEGURANÇA

Moderação: Fabio Kamamoto

15:20 – 15:32 Avanços em 10 Anos: O que mudou na técnica cirúrgica e os erros que não cometemos mais.

Fábio Kamamoto

15:32 – 15:44 Técnicas de retração de pele e como escolher entre elas

Renan Américo

15:44 – 15:56 Lipedema graus 1 e 2. O tabu de operar nos estágios iniciais.

Juliana Reis

15:56 – 16:08 Gestão de Complicações: Anemia, seromas, irregularidades e a paciente insatisfeita – Protocolos de resgate

Fábio Kamamoto

16:08 – 16:20 Lipoaspiração e Varizes Simultâneas: Viabilidade, segurança e a logística do centro cirúrgico híbrido.

Karen Utsunomia & Fabio Kamamoto

16:20 – 16:40 Discussão

16:40 – 18:00 SESSÃO 6: CASOS COMPLEXOS ("WAR ROOM") E ENCERRAMENTO

16:40 – 17:10 Painel de Casos Complexos: Estágios 3 e 4. Quem operar? Quando?

Jaqueline Baiocchi & Vitor Gornati & Fábio Kamamoto

17:10 – 17:30 A Voz da Paciente: Relatos de transformação – Vida antes e depois do diagnóstico e tratamento.

Jesana Alvares Rodrigues, Leila Alves de Oliveira Lima, Renata Lopez Frasson de Souza, Tamiris de Sá dos Santos Ee Vanessa Belentani Dias de Melo.

17:30 – 17:45 Inteligência Artificial no LIS – Resumo das sessões para colocar em prática na Segunda-Feira.

Vitor Gornati

17:45 – 18:00 Encerramento : Discussão Final e Mensagens-Chave

Vitor Gornati & Fabio Kamamoto

 **SATURDAY, 11TH APRIL, 2026**  **ARENA ROOM**

9:00-10:20 AM Vascular Alliance Session: Career, Business and Office Management

Moderator: Igor Rafael Sincos

Secretary: Teresa Cristina Alves Duarte

9:00-9:07 AM Patient Experience 5.0: Hospitality, Journey Engineering, Premium Care and Comercial team

Rafael Tavano

9:07-9:14 AM Branding: The 5 Pillars to Becoming a Reference Surgeon

Arthur Curtarelli

9:14-9:21 AM Scaling a Medical Brand: Personal Reputation, Digital Authority and Influence

Matheus Hoffmann

9:21-9:28 AM AI Assistants and Workflow Automation: How to Build a 24/7 Digital Medical Team

Vitor Horvath

9:28-9:35 AM Strategic Positioning in the Age of AI: Are You Where You Should Be?

Daniel Coutinho

9:35-9:42 AM Q&A Session

9:42-10:20 AM Discussion

10:20-11:40 AM SVS Brazilian Chapter Session - Chronic Venous Disease – “Everyday Questions in Vascular Surgery”

Coordinator: Calógero Presti

Moderators: Walter Campos Jr, Rodrigo Kikuchi, Ivan B. Casella e André E. Estenssoro

10:20-10:27 AM Use of Duplex Ultrasound to Guide the Management of Saphenous Vein Reflux

Ivan B. Casella

10:27-10:34 AM Treatment Options for Varicose Tributary Veins of the Lower Limbs

Rodrigo Kikuchi

10:34-10:41 AM Spiders and Reticular Veins: Comparative Analysis of CLACS, Sclerotherapy and Radiofrequency

Lidiane Rocha

10:41-10:48 AM Pelvic Vein Disorders: Is IVUS an Essential tool?

Vinicius Bertoldi

10:48-10:55 AM Pelvic Varices and Endometriosis association: Which Should Be Treated First?

Mira Zlotnik

10:55-11:02 AM Inferior vena cava filters that are difficult to remove

Igor Rafael Sincos

11:02-11:12 AM Q&A Session

11:12-11:40 AM Discussion

SATURDAY, 11TH APRIL, 2026 ARENA ROOM

1:00-3:00 PM IMERSÃO BEAUTY LEGS FOTONA

Moderators: Arthur Curtarelli e Rafael Tavano

Secretary: Clara Freitas e Gustavo Restell

- 1:00-1:10 PM A visão estratégica: a nova demanda estética das pernas
Igor Rafael Sincos
- 1:10-1:20 PM O que realmente torna uma perna bonita: Anatomia da beleza das pernas
Christiane Inoue
- 1:20-1:30 PM A revolução dos lasers no contorno das pernas: Remodelação tecidual
Soraya Rossetti
- 1:30-1:40 PM Lipedema e estética das pernas
Clara Freitas
- 1:40-1:50 PM Uso do Laser Fotona para Varizes e Telangiectasias
José Oliveira-Pinto
- 1:50-2:00 PM Papel do Bioestimulador de colágeno: Qual melhor momento e resultado esperado?
Christiane Inoue
- 2:00-2:10 PM Tecnologias associadas
Gustavo Resstel
- 2:10-2:20 PM Realidade Aumentada e documentação Fotográfica
Andrea Klepacz
- 2:20-2:30 PM Demonstração do Erbium e Nd:YAG Robótica na vida Real: Facial, Corporal e Pernas
Juliana Olímpio
- 2:30-2:50 PM Metodologia e Certificação Beauty legs
Igor Rafael Sincos
- 2:50-3:00 PM Discussão
- 3:00-3:30 PM BREAK**

 **SATURDAY, 11TH APRIL, 2026**  **ARENA ROOM**

3:30-5:00 PM PAPER Competition

Evaluating Professors: Fausto Miranda Jr., Vinicius Bertoldi, Walter Campos Jr e Ricardo Aun

3:30-3:36 PM Retirada de Filtros de Veia Cava Inferior com Bainha de Laser Excimer: Série de Casos

Endjeli Vogler Reche

3:36-3:42 PM Tratamento Endovascular de Aneurismas Viscerais: uma série de casos e revisão de literatura

Luisa Luisi Fernandes Pinto

3:42-3:48 PM Técnicas de Preservação da Artéria Hipogástrica no Tratamento de Aneurismas de Artéria Ilíaca Interna: uma série de casos e revisão de literatura

Henrique Miranda Macaúbas

3:48-3:54 PM Eficácia e Segurança do Tratamento Endovascular na Síndrome de Nutcracker: Série de Casos

Beatriz Rufca

3:54-4:00 PM Manejo Clínico-Endovascular da Trombose em Veia Cava: Série de Casos e Revisão de literatura

Thiago Saggin Vinhas de Oliveira

4:00-4:06 PM Angioplastia de veias ilíacas com stents dedicados na Síndrome de Cockett - Série de Casos

Rebeca Cerqueira Miranda

4:06-4:12 PM implante de matriz integra e flowable no tratamento de feridas e pé diabético: série de casos

Sophia Zimet Tumolo

4:12-4:18 PM Manejo endovascular contemporâneo da doença oclusiva aortoilíaca: técnicas e desfechos clínicos

Gabriela Martins Madureira

4:18-4:24 PM Manejo Endovascular de Malformações Arteriovenosas Uterinas: uma série de casos e revisão de literatura

Jullia Lago Reis

4:24-4:30 PM Afecções de aorta tratadas com endoprótese ilíaca ramificada: relato de dois casos

Gabriel Henrique Farah

4:30-5:00 PM Discussão
